T-STRAP

Protected Design

I 436406

Set of 2 specially developed attachment straps for hanging up hammocks

The locking pin made from aluminium serves as a practical connection to the hammock loop at the same time – push it through and it will put itself diagonally and latch into place.

25 mm wide band: very kind to trees

Adjustable buckle for smooth adjustment from 15 to 220 cm

Contents: Two weatherproof straps with adjustable buckle made of metal and spike in solid aluminium

Product data:
