URBAN WAY OF LIFE

Taking inspiration from an urban way of life, elho has hand picked the perfect collection of outdoor pots for you. Add your own personal touch to your terrace, balcony or patio with one of the loft urban products. Colourful atmospheric simple and convenient.

## LOFT URBAN POWER

Put together your own style with the versatile loft urban collection. The matt, robust finish combined with the trendy, bright and soft colours to form a dynamic effect.

During the design process urban balconies and roof terraces were used as inspiration. This is reflected in the style, dimensions and different applications of the products. Thanks to the built in water reservoir plants keep their looks without needing constant watering.
